

Both pictures are from two different mobiles — the website was opened in Chrome on each. There's a gap popping up after the tiles section. Please check the bug and fix it

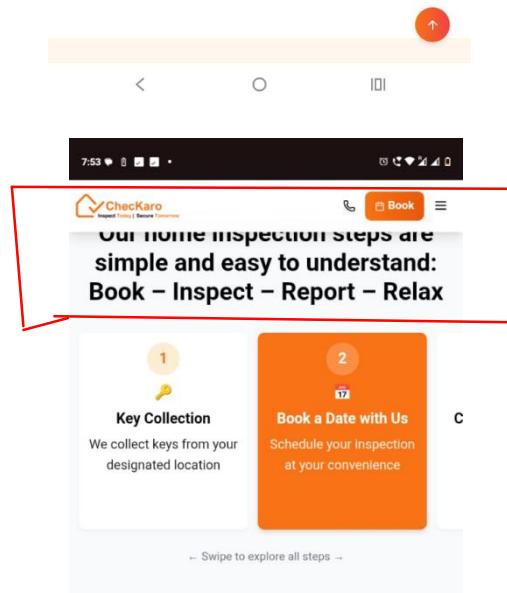

Top logo and heading font size need adjustment to match the new website. Business name font is too small — increase size for better visibility, especially on mobile. For reference check Meesho Logo font size

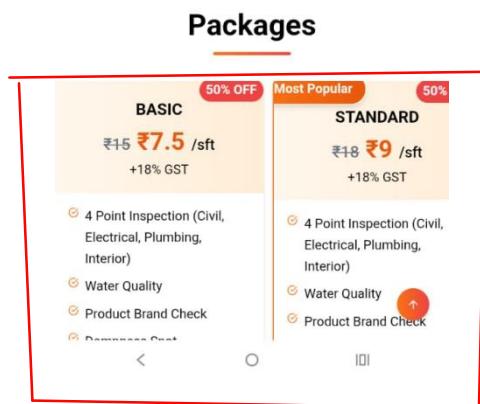

The Image of house is blur , replace it with original HD quality image provided by us previously.

When Quick Links buttons are pressed, the top heading line is not aligning properly with the page layout. This issue repeats for all Quick Links. Please check and fix alignment across all linked sections.

Same issue as above — the heading for this Quick Link button is currently placed at the top. Please align it to the center, as shown in the left-hand side reference image.

The packages section is moving while scrolling. Please make it static (non-movable)
